

day14\6_passObjectAsArgument.js

```
1 //code snippet
2 let obj = {
3     firstName: "kim",
4     lastName: "jong",
5     zipcode: 54222,
6     address: "787- toy market, CA"
7 }
8
9 function func(objecty){
10     console.log(objecty.address, objecty.lastName);
11     console.log(objecty.firstName, objecty.zipcode);
12 }
13
14 func(obj); //complete object is passed as an argument.
15
16
17
18 //code snippet
19 let obj2 = {
20     firstName: "Qiang",
21     lastName: "Tong",
22     zipcode: 5422271,
23     address: "78887- to2p market"
24 }
25 function func2({firstName: Name, zipcode: pin}) //here, the object ob2 is destructured
26 {
27     console.log(Name, pin);
28 }
29 func2(obj); //passed the complete object ob2 while function call
30
31
32
33
34 //code snippet
35 let obj3 = {
36     firstName: "Lilly",
37     lastName: "Aian",
38     zipcode: 5400001,
39     address: "78887- tip market, LA"
40 }
41 function func3({firstName, zipcode}) //but here, the object ob3 is destructured
42 {
43     console.log(firstName, zipcode);
44 }
45 func3(obj3); //passed the complete object ob3 while function call
46
```
