

day14\7_nonPrimitive.js

```
1 //code snippet
2
3 //this denotes a primitive data type
4 let str1 = "Los Angeles";
5 console.log(str1);
6 console.log(typeof(str1));
7
8 //this denotes non-primitive data type
9 let stry = new String("California"); //declaring a string using new keyword.
10 console.log(stry);
11 console.log(typeof(stry));
```
