

day13\4_structuredClone.js

```
1 //structured clone makes totally separate and different copies
2 const user1 = {
3   name: "yuan",
4   ssn: 12456,
5   //address property is nested object
6   address:{
7     zipcode: 789990,
8     "street number": "7-plank street"
9   }
10 }
11
12 const user2 = structuredClone(user1);
13
14 console.log(user1, user2);
15
16 user2.name = "huyan";
17 user2.address.zipcode = 878887;
18 console.log(user1, user2);
```
