

day14\4_restOperator.js

```
1 //here, the operator ...num is a rest operator, it's not a spread operator.
2
3 function fun(...num){ //all values get stored and bundled together in the num and num acts
  as an array.
4   let sum = 0;
5   for(let i=0;i<num.length; i++)
6   {
7     sum += num[i];
8   }
9   return sum;
10 }
11
12 let total1 = fun(2, 4, 6, 8);
13 let total2 = fun(3, 5, 7, 9, 100, 170);
14 let total3 = fun(1, 3, 17, 82, 2, 5, 740, 1010);
15 console.log(total1, total2, total3);
```
